

JADEWEBPOS

*The Completely Integrated
Retail Transaction Solution*

BENEFITS & FEATURES

● Minimal Counter Space

Compact, all-in-one design saves precious counter space and reduces clutter.

● Easy to Use/Easy Operation

Simple, logical interface reduces clerk training and saves hours of help desk calls.

● Multiple Functionalities

All the features and functions required by retailers are integrated into a single, stand-alone point-of-sale system - from cash registering to supporting of multiple payment types and value added applications, such as magnetic-stripe cards, smartcards, pre-paid cards and loyalty/gift cards.

● Advanced Communications

In addition to dial-up communications using high speed (up to 33.6Kbps) modem, **JADEWEBPOS** supports Ethernet communications that deliver a variety of advantages - super-fast transactions and always-on service.

● Maximum Flexibility & Expandability

Multiple peripheral ports (3 RS232, 1 LAN, 2 USB, up to 2 PS2, 1 sound) are supported on **JADEWEBPOS** for connecting a wide range of external devices/peripherals to provide maximum flexibility and expandability to retailers for their investment protection.

SPECIFICATIONS
